

TAKE OFF FOR A SAFE TRAVEL #1

HOW CAN YOU PREPARE FOR A SAFE TRAVEL?

THREE EASY, BUT IMPORTANT STEPS.

BE INFORMED

- Please review the latest **departure regulations, entry requirements, and testing obligations** relevant to your journey.
- Please verify the **arrival & entry regulations** for your **return trip**.

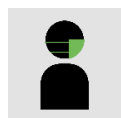

PLAN SOME EXTRA TIME

Familiar routines and procedures may take **additional time** under the given circumstances. In order to avoid unnecessary crowds of people, processes are increasingly stretched in time.

BE PREPARED

- Remember to bring your own **personal protective equipment**:

- **Medical face masks** such as surgical or KN95/N95 and FFP2 masks are mandatory at the airport and on board.
- **Hand sanitizer** – check the regulations for travelling with liquids in your carry-on luggage. (Only travel-sized containers of 100ml)

- Make a **medical-self-check**: Please refrain from travel if you have any COVID-19-related symptoms, such as cough or fever or been in contact with (potentially) infected persons.

- Please use the **Corona-Warn-App** for your smartphone.

- Provide valid proof of your **vaccinated or recovered status or a negative COVID-19 test** where necessary. Tests must be taken before departure at an airport testing station or other regional test centers and medical practices.

PROTECTIVE SAFETY ARRANGEMENTS AT THE AIRPORT

GETTING SAFELY THROUGH THE TERMINAL (LANDSIDE)

- **Medical face masks** such as surgical or KN95/N95 and FFP2 masks are mandatory in airport buildings.
- **Protective Plexiglas panes** ensure safe contact between passengers and employees.
- **Hygiene article vending machines** and **hand disinfectant dispensers** are provided at different locations of the airport.
- **Cleaning and sanitization cycles** of contact surfaces in terminals are more frequent.
- **Social distancing** is encouraged. Barrier tapes and floor markings indicate the proper distance.
- **Rules of conduct** are displayed through announcements, signs, posters, and videos.
- **COVID-19 testing stations** are provided at some airports, such as Frankfurt and Munich. Tests may also be taken in other regional test centers or medical practices.
- **Proof of a vaccinated or recovered status or a negative COVID-19 test** before departure is currently mandatory for gaining access to the airside and going on board.

CHECK-IN & BAGGAGE DROP-OFF

Please use wherever possible:

- **Online** and **mobile check-in**
- **Self-service** kiosks for **check-in**
- **Self-service** stations for **baggage drop-off**

PREPARED THROUGH SECURITY CONTROL

- Mind **social distancing**. Enter checkpoint only when requested by security staff.
- Only **one piece of hand luggage** is allowed.
- Please pull off **mask** temporarily only when asked by security staff.

ENJOYING A SAFE STAY ON THE AIRSIDE

GENERAL HYGIENE AND SAFETY GUIDELINES

HOW YOU CAN HELP:

COVID-19 rules of conduct also apply on the airside:

- Please wear a **medical face mask** that covers both mouth and nose at all times.
- Please **wash your hands** regularly and use the available **hand sanitizer**.
- Please mind a proper **social distance** of at least 1.5m.

HOW WE ARE HELPING:

Airports and airlines do their best to arrange for your health and safety as well:

- **Hygiene article vending machines** and **hand disinfectant dispensers** are provided at different location of the airport.
- **Extended cleaning services:** Frequent cleaning cycles of passenger areas and sanitization of contact surfaces.
- **Social distancing** is encouraged through barrier tapes, floor markings etc.
- **Rules of conduct** are regularly displayed by announcements, signs, posters, and videos.

WAITING AREA

To ensure a pleasant stay while adhering to the **current rules of conduct**, waiting areas offer comfortable seating and resting accommodations. At the same time, **blocked or sealed-off seats** provide a **safe social distance**.

SHOPPING & GASTRONOMY

Airport shops and restaurants may be open in compliance with current **hygiene and safety measures**. Besides **social distancing** and wearing a mandatory **medical face mask**, **contactless payment options** provide additional safety.

GETTING ON AND OFF BOARD SAFELY

WELL-ORGANIZED BOARDING PROCESSES*

ANNOUNCEMENTS:

Boarding procedures have been optimized to match the current health and hygiene standards. You can assist, too:

- Please pay close **attention to staff announcements** made during boarding process.
- Please note **information provided on displays** at the gate.

ORGANIZATION BY GROUPS:

Airports and airlines do their best to arrange for a well-organized boarding procedure to protect your health and ensure your safety:

- If **boarding by groups** is required by the airline, please wait until your group is called.

CONTACTLESS BOARDING:

Contactless boarding procedures are key to safety in terms of health and hygiene:

- Make use of **digital services** and **automated boarding gates**.

FURTHER MEASURES

While boarding, the same rules of conduct apply as everywhere else at the airport: Please wear a **medical face mask** (such as surgical or KN95/N95 and FFP2 masks) and maintain a **distance of at least 1.5m** whenever possible.

Gangway-boarding is the preferred procedure. However, if **bus-boarding** is required, additional busses will be provided to **equalize the passenger flow**.

DEBOARDING

Disembarking follows the same principal guidelines as the boarding process. Please **remain seated until called** to avoid crowds in the aisle and **pay attention** to the **instructions of the well-trained staff** organizing the process.

* Please note that specifics in regulations may vary by airlines and airports.

ON BOARD: A SAFE AND RELAXED FLIGHT EXPERIENCE

BASIC ON-BOARD HYGIENE AND SAFETY STANDARDS*

GENERAL GUIDELINES:

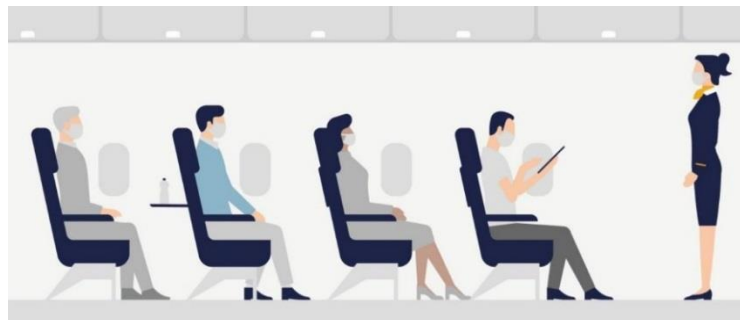

- **Careful seat allocation** ensures the safest possible distribution of passengers in the cabin.
- **Carry-on baggage regulation reduces congestions** in the aisles when (de-) boarding and **excessive movements** during the flight.
- Passengers as well as crew members are required to wear a **medical face mask** at all times while on board.
- **Common consideration by all people on board creates a safer space:** Please **avoid unnecessary movements** while on the plane and **crowds** in front of lavatories, etc.

MODIFIED ON-BOARD SERVICES:

On-board services have been **flight-appropriately simplified** in order to **reduce direct contact between passengers and crew members**, as well as excessive **movements** on board:

- **Meals** are served in **disposable packaging** on **sealed trays** for an **easy delivery** and **collection**.
- **Magazines, newspapers** are available **online**.

THE CREW:

- The cabin crew is **specifically trained and prepared** to observe and guarantee **hygiene and safety regulations**.
- They are **ready to take proper precautions** in case a passenger should show COVID-19-related **symptoms during the flight**.
- Each crew member is **equipped** with their own **personal protective equipment, such as medical face masks and gloves**, to safeguard their own as well as the passengers' safety.

* Please note that specifics in regulations may vary by airlines.
